Introduction

- Enclosed is the weekly Treasury Single Account ("TSA") cash flow report and supporting schedules with weekly actual results YTD FY19. The FY 2019 TSA Liquidity Plan is under development. Following the development of the FY 2019 TSA Liquidity Plan, this package will include a comparison of FY19 actual TSA cash flow data to the FY 2019 TSA Liquidity Plan along with the relevant commentary. Until that time, FY18 actual TSA results will be presented for comparison purposes and variance analysis. Note that on September 6, 2017 Hurricane Irma made landfall on Puerto Rico, followed by Hurricane Maria on September 20, 2017. Variances driven by differences in September and October in the comparable period in FY18 are largely driven by the DTPR's limited ability to make disbursements and collect receipts immediately following the hurricanes.
- TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.
- Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
- Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.
- Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissible disbursements (per approved Project Worksheets) have been made.
- Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):
 - Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.
 - Schedule A - Collections - Source for collections information is the DTPR collections system.
 - Schedule B - Central Government Live Web Portal AP Aging
- Data limitations and commentary:

The government has focused on cash transaction information for which access to reliable, timely, and detailed data is readily available. The government continues to work with DTPR and other parties to access additional reliable data that would help to provide additional detail in the future.

Cash Flow line item	Variance (\$M)	Comments
1 Inflow - Collections	\$ 549	1.) Variance is largely driven by improved FY19 collections with outperformance attributable to Corporate Income Taxes (+\$184M), Individual Income Taxes (+\$165M), & Motor Vehicles fees (+\$102M) stemming from positive impact of post-hurricane recovery efforts. Additionally, a portion of positive variance is driven by the timing of Act 154 collections (+\$19M) and Non Resident Withholding receipts (+\$48M).
2 Inflow - Sales and Use Tax	105	2.) Variance is primarily due to depressed FY2018 sales and use tax collections following the hurricanes in addition to certain tax exemptions extended to small businesses and on the sales tax typically applied to prepared foods.
3 Inflow - Pension Inflows	(248)	3.) Variance is primarily due to FY2018 Pension Asset sales of \$390M which occurred in July of 2017.
4 Inflow - Federal Fund Receipts (b)	2,089	4.) Variance is mainly driven by increased federal funding for the Medicaid Program, Nutritional Assistance, the Department of Public Housing, federal funds received for the pass through of Employee Retention Credits (ERC), and funds received for federally-reimbursable vendor disbursements.
5 Inflow - PREPA Loan	153	5.) Puerto Rico Central Government loaned \$300M to PREPA pursuant the Superpriority Post-petition Revolving Credit Loan Agreement (The Agreement) in February of FY2018. Inflows relate to mandatory loan repayments based on PREPA revenues and cash balance in FY2019.
6 Outflow - ASES Appropriations	(291)	6.) Total increase in outflows to ASES (Medicaid funds) is the net result of: (1) increase in FY2019 federal funds used for Medicaid provided for in the BBA (-\$621M); and (2) decrease in FY2019 general fund dollars needed to fund Medicaid (+\$330M) since the additional federal funding via the BBA eliminates the need to utilize the General Fund for Medicaid spending.
7 Outflow - HTA Appropriations	(121)	7.) Unfavorable variance due to carry over capital expenditure related funding from FY18 (-\$80M), for which HTA is administering those funds on behalf of the Dept. of Transportation; and (-\$41M) due to timing.
8 Outflow - Vendor Disbursements	(1,129)	8.) Increase in vendor payments is mainly driven by FEMA Cost Share payments (-\$135M), Title III disbursements (-\$82M), federally reimbursable payments for the Department of Public Housing relating to the prior budget period (-\$405M), and increases in all other federally-reimbursable payments related to the prior budget period (-\$279M), with the remaining difference largely attributable to the slow-down in vendor payments in the weeks following Hurricanes María and Irma in FY2018.
9 Outflow - Tax Refunds	(209)	9.) Tax refunds variance is mainly driven by the payment of employee retention credits in FY2019 (-\$295M). Remaining positive offsetting variance is mostly due to past-due refunds paid in the first quarter of FY2018.
10 Outflow - NAP Appropriations	(483)	10.) Increase in outflows for NAP corresponds to the increase in Federal Fund Receipts for the Nutritional Assistance Program provided for in the Additional Supplemental Appropriations for Disaster Relief Requirements Act of 2017.
All Other	308	
Total YTD Variance	\$ 723	

Footnotes:

- (a) For comparison purposes, YTD figures for the week ended 11/24/2017 are used above for the prior year due to calendar year differences between FY2018 to FY2019.
- (b) The total YTD FY19 vs. YTD FY18 federal funds receipt inflows variance (+\$2,089M) is offset by corresponding federal funds outflows variances: (1) ASES Medicaid outflows variance (-\$621M); (2) a portion of the vendor disbursements variance (-\$684M); (3) NAP outflows variance (-\$483M); and (4) federal funds received for Employee Retention Credits (-\$295M) that are paid through tax refunds cash flow line item. The sum of these four offsetting outflow variances is (-\$2,083M). Remaining federal funds outflow variance offsets includes payroll disbursements and others.

Footnotes:

- (a) Data presented above represents the Central Government live AP Web Portal repository of third party and intergovernmental invoices by agency, implemented for FY2019. The full transition to managing central government payables through the web portal is not yet complete and therefore the table above may not represent all Central Government AP. Ongoing efforts with the largest agencies to implement the appropriate processes and controls needed to fully transition to the web portal and realize improvements in reporting and efficiency continue as of the date of this report.
- (b) On a go-forward basis, vendors submit invoices for approval through the live AP Web Portal where they are logged electronically, matched with the appropriate purchase order or other relevant documentation, and approved / vouchered at the agency level through the online interface.
- (c) The total of Unmatched Invoices presented shows the amount of payables maintained outside the web portal system. Unmatched invoices are tracked in manual ledgers as the process is still ongoing to validate these invoices have (i) been paid / not yet paid; or (ii) are appropriately included in the AP Web Portal.
