Program Overview

Background

Since March of 2020, Puerto Rico, like most jurisdictions in the United States and countries around the world, has experienced an unprecedented emergency caused by the Coronavirus Disease 2019 (“COVID-19”) pandemic. To slow the spread of the disease and ensure stability of its healthcare system, the Government of Puerto Rico has implemented measures to address the emergency. On March 12, 2020, the Government of Puerto Rico issued Administrative Bulletin OE-2020-020 through which formally declared a state of emergency due to the imminent impact of the coronavirus in Puerto Rico.

During the state of emergency, Puerto Rico suffered great loss of life and severe economic hardships which have impacted a Commonwealth still reeling from natural disaster. Puerto Rico lost over 2,500 citizens, tourism dwindled with hotel registrations falling 95% from February to April 2020, and 460,000 residents of Puerto Rico experienced unemployment, twice the previous number of unemployed individuals. Despite these hardships, Puerto Rico persevered, and with over 2,600,000 doses of COVID-19 vaccines administered, Puerto Rico is positioned to emerge from the COVID-19 pandemic.

To help Puerto Rico emerge from the COVID-19 pandemic, Congress passed the American Rescue Plan Act of 2021 (“ARP Act”), and the President signed it into law on March 11, 2021. To assist state governments with addressing the lingering public health emergency while targeting areas and industries in needs of economic development, the ARP Act established the Coronavirus State and Local Fiscal Recovery Fund, which provides \$350 billion in direct assistance to states, territories, counties, metropolitan cities, tribal governments, and non-entitlement units of local governments. As part of the Coronavirus State and Local Fiscal Recovery Fund, Puerto Rico received \$2.47 billion under the Coronavirus State Fiscal Recovery Fund (“CSFRF”).

To ensure the expeditious processing of apportioned funds from the CARES Act, the Government of Puerto Rico established the Disbursement Oversight Committee, consisting of the Secretary of the Department of the Treasury, the Director of the Office of Management and Budget (OGP), and the Executive Director of the Puerto Rico Fiscal Agency and Financial Advisory Authority (AAFAF). The Committee was created on May 15, 2020, by means of Executive Order No. 2020-040, and on May 7, 2021, by means of Executive Order No. 2021-034, the Governor of Puerto Rico extended the Committee’s oversight to include CSFRF.

Program Description

On August 3, 2021, Governor Pedro Pierluisi announced the Low-Income Housing Repairs Program. This program makes up to \$50 million in immediate CSFRF funds available to provide low-income families with funding for housing rehabilitation projects including, but not limited to, relocation and assistance to remove temporary blue roof awnings.

Adequate housing provides shelter to families as well as provides a foundation for a strong family, and many low-income families are forced to forego critical housing repairs in order to provide for their families. This program partners with the Puerto Rico Office for Socioeconomic and Community Development (ODSEC), the Puerto Rico Department of Housing (Vivienda), and local municipalities to undertake low-income housing rehabilitation projects including, but not limited to, repair of blue awnings.

Disbursement of Program funds will be subject to the strictest standards to ensure compliance with federal regulations and best practices. Therefore, each request for disbursement will be duly documented and subject to control and audit.
