PROGRAM GUIDELINES

Program Overview

Background

In response to the sudden decline in economic output following the Coronavirus disease 2019 (COVID-19) outbreak, Congress signed the Coronavirus Aid, Relief, and Economic Security (CARES) Act into law on March 27, 2020. The CARES Act established the Coronavirus Relief Fund (CRF), which provides \$150 billion in direct assistance for domestic governments, territories, and tribal areas to disburse in accordance with its provisions.

To ensure the expeditious processing of apportioned funds from the CARES Act, the Government of Puerto Rico established the Disbursement Oversight Committee, consisting of a representative of the Secretary of the Department of the Treasury, a representative of the Director of the Office of Management and Budget (OGP), and a representative of the Puerto Rico Fiscal Agency and Financial Advisory Authority (AAFAF).

Program Description

On May 15, 2020, Governor Wanda Vázquez Garced issued Executive Order OE-2020-040 establishing Puerto Rico's Strategic Disbursement Plan for the Coronavirus Relief Fund (CRF) under the CARES Act. The plan lays out 16 distinct programs that address both government needs (mainly associated with attending to the public health emergency and continuing government operations) and those of the private sector, which has been severely affected by interruption of operations.

On June 18, 2020, Governor Wanda Vázquez Garced announced a new program, Remote Learning Solutions for Students (Program), to be funded from the CRF Reserve that was initially identified in the Strategic Disbursement Plan. This Program makes up to \$50 million in immediate CRF funds available to ensure that students will have access to the resources and technology they need to continue their education.

One component of the Program will ensure 2020 high school graduates who are enrolled to begin a postsecondary program during 2020 will have access to the technology and connectivity needed to participate in distance learning programs. It will be conducted in partnership with local technology and connectivity vendors from whom eligible students may purchase devices and services needed to engage in distance learning resulting from the COVID-19 public health emergency. Each eligible student will be permitted up to a maximum expenditure of \$1,000.

A second component of the Program will produce education programming for students who are unable to attend classes in person. It will be conducted in partnership with television production and distribution vendors with the capabilities and skills required to produce quality programming.

A third component of the Program was authorized to ensure that all students enrolled in Puerto Rico Department of Education (PRDE) schools, and all PRDE educators, have adequate and reliable internet access to participate in PRDE's virtual education programs. This support is necessary to ensure all students have access to educational programs while traditional classroom instruction has been suspended due to the Coronavirus health emergency. This component of the Program will also be conducted in partnership with local connectivity vendors from whom students may acquire internet

access services for remote learning. When this third component was authorized, an additional \$40 million was allocated to the Program, for a total allocation to this Program of \$90 million.

This Program will be implemented in accordance with applicable federal regulations. Disbursement of Program funds will be subject to the strictest standards to ensure compliance with federal regulations and best practices. Therefore, each request for disbursement will be duly documented and subject to control and audit.

Points of Contact

The Program will be supervised by the Disbursement Oversight Committee and administered by the Department of the Treasury of Puerto Rico and the Department of Education of Puerto Rico (PRDE).

Other CRF Programs

In addition to the Program detailed above, the Governor allocated funds for additional programs to address both government needs (mainly associated with attending to the public health emergency and continuing government operations) and those of the private sector, which has been severely affected by interruption of operations. Please visit <http://www.aafaf.pr.gov/covid-19-resource-center/> for additional information about these programs.

Applications

It will not be necessary for parents or educators to apply to this program. PRDE will provide information about participating vendors and instructions for making purchases to eligible students, their parents, and educators.

Obtaining Internet Access

A list of Program-approved vendors will be made available by October 15, 2020. Parents/guardians and educators may request internet access services directly from their chosen Program vendor through November 30, 2020.

Before completing a transaction under this Program, the vendor will require the parent/guardian or educator to present a photo ID as well as identifying information about each eligible individual for whom internet access is being requested.

- Parents/guardians must show the vendor the student's PRDE Grades Report, which includes the student's name and Student ID Number, and must also provide the vendor with the student's date of birth. It is not necessary for the student to accompany the parent to make the purchase.
- In addition to showing their photo ID, educators must provide the vendor with their name, PRDE Employee ID Number, and Social Security Number.

The vendor will enter the information provided into the online vendor portal and the information must match PRDE records for the transaction to proceed. The vendor will also require the educator or parent/guardian to certify their eligibility to participate in the Program, the accuracy of the information provided to the vendor, and their desire to use their Program benefit to obtain services from the vendor.

Vendor Funding

Participating vendors who complete Program transactions with eligible participants will be required to certify and submit monthly financial reports via the SURI portal in order to receive reimbursement for the students' purchases.

Vendors must also provide bank account information via the SURI portal in order to receive payment by electronic funds transfer.

Vendors will only be paid for actual services provided to eligible participants for the authorized period ending May 31, 2021. If it is determined after services are activated that the actual charges will be less than the amount entered in the original transaction, the vendor will enter an additional transaction into the portal to adjust the total amount accordingly.

Compliance

Participating Program vendors will be required to submit a comprehensive financial reconciliation report by January 29, 2021, detailing the use of Program funds throughout the duration of the Program.

Program vendors may additionally be required, upon request, to show proof of transactions and submit other required documentation.

The Disbursement Oversight Committee will receive a final report of vendor activity and disbursement of funds.

Participating Program vendors will also be required to retain evidence of eligible transactions for a period of five (5) years. Furthermore, by accepting CRF funds the recipient is required to certify proper and legal use of the funds and agrees to cooperate in any audit proceedings requested by The Government of Puerto Rico or other governing entity responsible for the compliant use of funds.

Students who make purchases under the Program that are later found to be ineligible may be required to repay the Program in full for the ineligible purchase amount.
